900 W LAMINATED WOOD ORANGE

The 900 W model combines the unique feel of a wooden stock with the comfortable adjustment options that are otherwise only known from aluminum stocks.
The stock made from exclusive woods, together with the optimized system bedding with double barrel clamping offers ideal conditions for the best results.

AVAILABLE OPTION
900 W WALNUT

Cheek Piece
can be moved laterally via fine adjustment in the aiming position - reaction to changed conditions at the shooting range is possible without loss of time

Further developed **absorber unit** for individual pulse adjustment

Match-Diopter
swiveling, mounted on a sliding and removable prismatic clamp

Cocking lever
can be swiveled and rotated 360°, can be mounted on right or left side

more space for easy **pellet insertion**

Maintenance-free pressure reducer
with reduced noise for even more constant system function

optimized **system bedding**

Cheek Piece
(made of beech wood)
and Butt Plate
infinitely adjustable by means of pinions and racks

Butt Plate X-Line

revised **Match Trigger**
made of HSS components with excellent kinetic properties

Anatomically shaped 3D Grip
made of beech wood. Three-dimensionally adjustable, longitudinally and laterally adjustable, available in sizes S, M and L

Hand rest
height adjustable, swiveling, length adjustable

continuous **T-slot rail** in the aluminum front stock

Wooden stock
made of walnut or laminated wood orange for unique haptics and ergonomics

900 W - BENCHREST
WALNUT

The benchrest version of the stock made from carefully selected woods also offers ideal conditions for demanding shooters. Quality, functionality and precision in a stock with a unique feel and comfortable adjustment options.

AVAILABLE OPTION

900 W - BENCHREST **LAMINATED WOOD ORANGE**

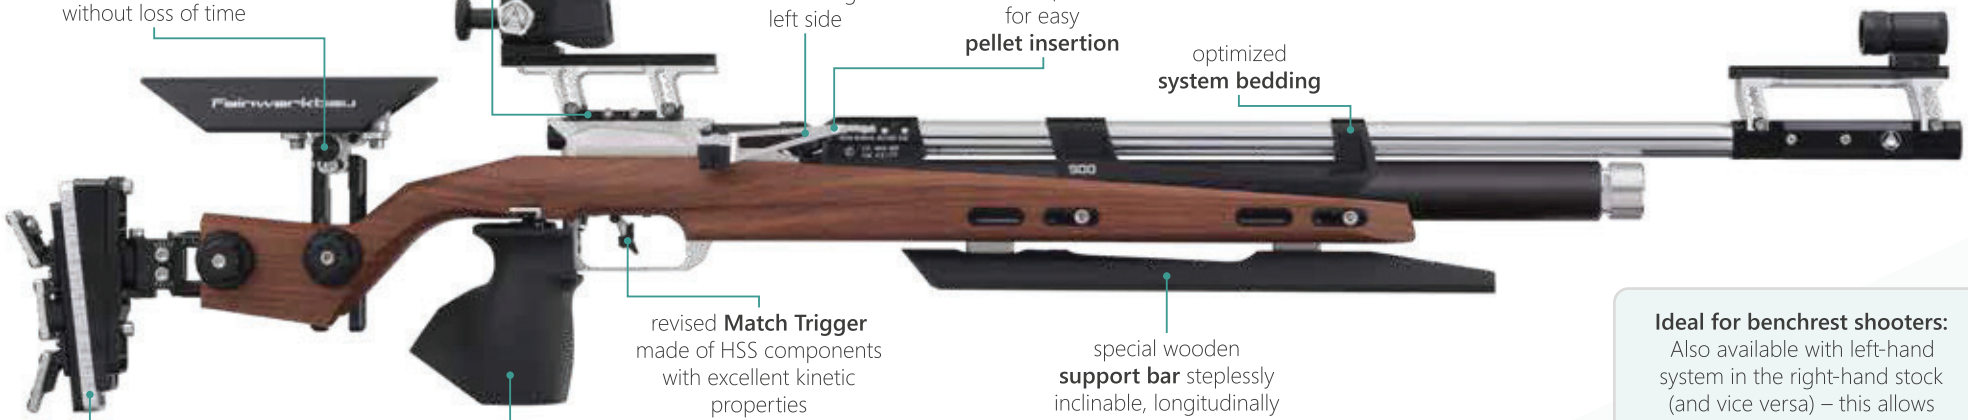

raised **Cheek Piece** for benchrest shooting can be moved laterally via fine adjustment in the stop - reaction to changed conditions at the shooting range is possible without loss of time

Sliding prism clamping allows quick mounting and dismounting of the complete sight unit and is thus ideal for protecting sensitive attachments during transport

Cocking lever can be swiveled and rotated 360°, can be mounted on right or left side

more space for easy **pellet insertion**

optimized **system bedding**

revised **Match Trigger** made of HSS components with excellent kinetic properties

special wooden **support bar** steplessly inclinable, longitudinally slidable

Butt Plate X-Line

Anatomically shaped 3D Grip made of beech wood. Three-dimensionally adjustable, longitudinally and laterally adjustable, available in sizes S, M and L

Ideal for benchrest shooters: Also available with left-hand system in the right-hand stock (and vice versa) – this allows comfortable reloading in benchrest shooting!
