AIR PISTOL P 85

THE PERFECT COMPANION FOR ALL AIR PISTOL SHOOTERS IN DYNAMIC DISCIPLINES.

CONVINCING PRODUCT FEATURES

- The new design of the 5-shot air pistol combines technical functionality with a breathtaking design and exceptional accuracy.
- The perfect companion for dynamic air pistol disciplines up to 25 m.
- The perfect training pistol for the "Olympic rapid fire pistol" discipline. Highest precision combined with significantly lower ammunition costs compared to small bore ammunition.
- Available in two power versions: 7.5 joules (permit-free in Germany with "F in pentagon") and 11 joules for longer distances.
- The cocking lever enables comfortable, effortless cocking.
- Versatile adjustable precision rear sight with coarse and fine adjustment, height and side adjustment, cant compensation and width and height-adjustable rear sight notch.
- High-precision match trigger: first stage weight, trigger point weight and trigger stop are independently adjustable.

- Relief holes on the barrel ensure an incomparably smooth shot release.
- Shots can only be fired when the magazine is inserted, ensuring maximum safety for the shooter.
- Supplied with 2 compressed air cylinders, 5-shot magazine, 1-shot/training magazine in a high-quality transport case with combination lock.
- Versatile adjustable Vario trigger blade made of steel - three-dimensionally adjustable and height-adjustable up to 4 mm.

Technical changes and deviations in design subject to change without notice. Some of the models are shown with special accessories.
All prices are quoted as MSRP incl. 19% VAT.
